### **Cost Audit General FAQs**

#### 1. What is XBRL?

XBRL (eXtensible Business Reporting Language) is a language based on XML (Extensible Markup Language) family of languages. It is an open standards-based reporting system that is built to accommodate the electronic preparation and exchange of business reports around the world using internet as a medium. It has been defined specifically to meet the requirements of business and financial information.

It enables unique identifying tags to be applied to items of accounting data. The tags provide a range of information about the item, such as whether it is a monetary item, percentage or fraction. XBRL not only allows labels in any language to be applied to items, it also allows the accounting references or other subsidiary information to be added to the tags.

### 2. What are the potential uses of XBRL?

XBRL can be applied to a very wide range of business applications including financial and cost data. XBRL has applications in the following areas:-

- Reporting for internal and external purposes by an entity involving financial and costing data/information.
- Business reporting to all types of regulators, including tax and financial authorities, central banks and governments.
- Filing of loan reports and applications; credit risk assessments.
- Exchange of information between government departments, institutions and banks.

### 3. Who can benefit from using XBRL?

All types of organisations can make use of XBRL to automate their process of data collection and distribution to various stakeholders. It helps in saving costs and improving the efficiency in managing business information – financial or cost. XBRL, being extensible and flexible, can be adapted to a wide variety of requirements. All stakeholders whether they are preparers, transmitters or users of business data in the financial information supply chain can benefit from the use of XBRL.

#### 4. What is the future of XBRL?

XBRL has a bright future ahead of it that goes way beyond the current focus on regulatory reporting and compliance. Businesses that are now creating XBRL filings for regulatory bodies should be thinking about how they can leverage their investment in understanding and using XBRL to drive more consistent and comparable internal reporting. By tagging data at the account/transaction level, by investigating how XBRL can help to deliver new holistic reports that integrate and connect financial and non-financial data, and by leveraging emerging online XBRL data streams for better industry performance and peer group analytics, every business can power its own journey towards financial transformation.

### 5. Who developed XBRL?

The Extensible Business Reporting Language (XBRL) is managed and promoted by XBRL International, a not-for-profit consortium, with companies, government bodies and other organizations as its members. Currently over 600 organizations are associated with XBRL International. It is comprised of jurisdictions, which represent countries, regions or international bodies and which focus on the progress of XBRL in their area.

### 6. What is the benefit of having cost related data in XBRL format?

Government and Regulators require cost data of different sectors for policy making. The availability of cost data [without compromising on the confidentiality] in XBRL format enables informed decision making and for sectoral studies.

With full adoption of XBRL, companies would be able to integrate its financial and cost data across its operational areas and exercise better control on its activities.

### 7. What is Costing Taxonomy?

Costing Taxonomy is a dictionary of all cost elements required in the cost audit report and compliance report. The costing taxonomy contains the properties and interrelationships of all these cost elements for the purposes of capturing the required reporting data in XBRL format.

#### 8. Where can I find the Costing Taxonomy and related Business Rules?

The Costing Taxonomy and related Business Rules including sample instance documents can be downloaded from the website of MCA (<a href="http://mca.gov.in">http://mca.gov.in</a>). The specific links are as follows:

#### Costing Taxonomy -

http://www.mca.gov.in/Ministry/pdf/Costing Taxonomy 2012-11-22 v1.0.zip

### **Business Rules -**

http://www.mca.gov.in/Ministry/pdf/Revised Business Rules Updated XBR L Costing 29.11.2012.zip

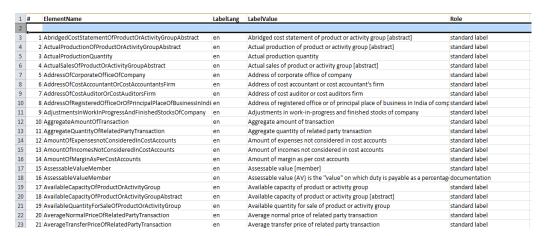

# 9. What are the contents of the excel sheets provided with the Costing Taxonomy?

The excel sheets are for reference and easy understanding of various components of taxonomy in a human readable form. The excel workbook contains the following worksheets:-

a. **Elements:** This worksheet contains all the concepts that form the costing taxonomy. The concepts are defined as elements/tags along with their characteristics such as data type, balance type, Nillable etc. e.g. cost of sales of product or activity group is an element defined as:

Characteristic	Property	Meaning
Element Name	CostofSalesofProductorA ctivityGroup	Name of the Element / Tag
Preferred Label	Cost of sales of product or activity group	Label that would appear in the rendered report
Label Role	Standard label	It is a standard label
Abstract	False	Abstract is False implies element can be used to tag data. Abstract set to True indicates that the element is only used in a hierarchy to group related elements together and cannot be used to tag data in an instance document.
Data Type	Monetary Item Type	It is monetary data type
Balance Type	Debit	The balance is debit balance
Period	Duration	The concept is reported for the period (financial year)
Substitution Group	Item	This tells whether the element is item, tuple, hypercube or dimension.
Nillable	True	Nillable set to true means the element can take empty values. If set to False it would means that the element in the instance should have non empty value.

b. **Labels:** This worksheet contains the 491 nos. of labels to be used as preferred labels in the final presentation (rendering) of the report in human readable format. A screenshot of the labels is given below:

c. **References:** This worksheet contains the relationships between elements and the references of the elements defined by authoritative literature. The reference parts used are listed below:

Reference part	Use
Name	CAS
Publisher	Institute of Cost Accountants of India
Section	Title of sections of standard or interpretation
Paragraph	Paragraph (number) in the standard
Subparagraph	Subparagraph (number) of a paragraph

An illustration is given below:

d. Extended Link Cost Audit Report: This worksheet contains the Extended Link Role definitions contained in the Cost Audit Report. Extended Link Roles represents a set of relationships between concepts and are the logical grouping of elements. The extended links are then used in link bases to build the relationships. The list of extended link roles in the Cost Audit Report are:

1 #	Extended Link Role definition	Used On
2	1 [100100] General information	presentationLinkbaseRef
3	2 [100300] Cost audit report (Form-II)	presentationLinkbaseRef , definitionLinkbaseRef
4	3 [100310] Cost accounting policy	presentationLinkbaseRef
5	4 [100320] Product or activity group	presentation Linkbase Ref, calculation Linkbase Ref, definition Linkbase Ref
6	5 [100330] Quantitative information of product or activity group	p presentationLinkbaseRef , calculationLinkbaseRef , definitionLinkbaseRef
7	6 [100340] Abridged cost statement of product or activity group	presentation Link base Ref, calculation Link base Ref, definition Link base Ref
8	7 [100340a] Abridged cost statement-Details of material consun	ned presentationLinkbaseRef , definitionLinkbaseRef
9	8 [100340b] Abridged cost statement-Details of utilities	presentationLinkbaseRef , definitionLinkbaseRef
10	9 [100340c] Abridged cost statement-Details of industry specific	ope presentationLinkbaseRef , definitionLinkbaseRef
11	10 [100350] Operating ratio analysis of product or activity group	presentationLinkbaseRef , calculationLinkbaseRef , definitionLinkbaseRef
12	11 [100360] Profit reconciliation	presentationLinkbaseRef, calculationLinkbaseRef
13	12 [100360a] Profit reconciliation-Details of incomes not conside	ered presentationLinkbaseRef , definitionLinkbaseRef
14	13 [100360b] Profit reconciliation-Details of expenses not consid	derec presentationLinkbaseRef , definitionLinkbaseRef
15	14 [100370] Value addition and distribution of earnings	presentationLinkbaseRef , calculationLinkbaseRef
16	15 [100400] Financial position and ratio analysis	presentationLinkbaseRef , calculationLinkbaseRef
17	16 [100410] Related party transactions	presentation Link base Ref, calculation Link base Ref, definition Link base Ref
18	17 [100420] Reconciliation of indirect taxes	presentation Linkbase Ref, calculation Linkbase Ref, definition Linkbase Ref
19	18 [100421] Reconciliation of indirect taxes/not-all	definitionLinkbaseRef
20	19 [100421a] Reconciliation of indirect taxes/not-all	definitionLinkbaseRef
21	20 [100421b] Reconciliation of indirect taxes/not-all	definitionLinkbaseRef
22	21 [100421c] Reconciliation of indirect taxes/not-all	definitionLinkbaseRef
23	22 [100421d] Reconciliation of indirect taxes/not-all	definitionLinkbaseRef
24	23 [900000] Typed default	definitionLinkbaseRef
25	24 [910000] Axis-Defaults	definitionLinkbaseRef
26		

e. **Presentation Cost Audit Report:** This worksheet defines the structure of the Cost Audit Report for displaying the data along with preferred label attribute and the specific order in which they appear. This enables the taxonomy users to view the representation of elements in the human readable format. The illustration below shows the presentation of Product or Activity Group Details (Para 3 of the Annexure to Cost Audit Report):

Prefix	Preferred Label	Element Name	Label Role	Order
ELR	[100320] Product or activity group			
in-cost	Product or activity group [abstract]	ProductOrActivityGroupAbstract	standard label	
in-cost	Details of product or activity group [abstract]	DetailsOfProductOrActivityGroupAbstract	standard label	
in-cost	Product or activity group [table]	ProductOrActivityGroupTable	standard label	
in-cost	Identification of product or activity group [axis]	IdentificationOfProductOrActivityGroupAxis	standard label	
in-cost	Whether previous year figures are reported	WhetherPreviousYearFiguresAreReported	standard label	
in-cost	Details for not reporting previous year figures [text block]	DetailsForNotReportingPreviousYearFiguresExplanatory	standard label	
in-cost	General information of product or activity group [abstract]	GeneralInformationOfProductOrActivityGroupAbstract	standard label	
in-cost	Name of product or activity group	NameOfProductOrActivityGroup	standard label	
in-cost	Product or activity group code	ProductOrActivityGroupCode	standard label	
in-cost	Four digit CETA chapter headings included in product or activity grou	FourDigitCETAChapterHeadingsIncludedInProductOrActivit	standard label	
in-cost	Net operational revenue of product or activity group	NetOperationalRevenueOfProductOrActivityGroup	standard label	
in-cost	Whether product or activity group covered under cost audit	WhetherProductOrActivityGroupCoveredUnderCostAudit	standard label	
in-cost	Other incomes of company	OtherIncomesOfCompany	standard label	
in-cost	Total revenue as per financial accounts	TotalRevenueAsPerFinancialAccounts	standard label	
in-cost	Notes to product or activity group [text block]	NotesToProductOrActivityGroupExplanatory	standard label	
	ELR in-cost	ELR [100320] Product or activity group in-cost Product or activity group [abstract] in-cost Product or activity group [abstract] in-cost Product or activity group [abstract] in-cost Identification of product or activity group [axis] in-cost Whether previous year figures are reported in-cost Water previous year figures are reported in-cost General information of product or activity group [abstract] in-cost Name of product or activity group in-cost Four digit CETA chapter headings included in product or activity group in-cost Whether product or activity group covered under cost audit in-cost Whether product or activity group covered under cost audit in-cost Total revenue as per financial accounts	In-cost   Product or activity group   In-cost   Identification of product or activity group   In-cost   Identification of product or activity group   In-cost   Identification of Product Or-Activity Group Axis   Identification Of Product Or-Activity Group Axis   Identification Of Product Or-Activity Group In-cost   Whether previous Year Figures are reported   Whether Previous Year Figures Explanatory   In-cost   In-co	ELR   100320  Product or activity group   In-cost   Product or activity group [abstract]   ProductOrActivityGroupAbstract   standard label   In-cost   Details of product or activity group [abstract]   DetailsOfProductOrActivityGroupAbstract   standard label   In-cost   Product or activity group [table]   ProductOrActivityGroupAbstract   standard label   In-cost   Identification of product or activity group [axis]   IdentificationOfProductOrActivityGroupAxis   standard label   In-cost   Whether previous year figures are reported   Whether PreviousYearFiguresAreReported   standard label   In-cost   General information of product or activity group [axis]   DetailsForNotReportingPreviousYearFiguresExplanatory   standard label   In-cost   General information of product or activity group [abstract]   GeneralInformationOfProductOrActivityGroupAbstract   standard label   In-cost   Name of product or activity group   NameOfProductOrActivityGroup   standard label   In-cost   Product or activity group code   ProductOrActivityGroupCode   standard label   In-cost   Product or activity group   NetOperationalRevenueOfProductOrActivityGroup   standard label   In-cost   Net operational revenue of product or activity group   NetOperationalRevenueOfProductOrActivityGroup   standard label   In-cost   Whether product or activity group   NetOperationalRevenueOfProductOrActivityGroup   standard label   In-cost   Whether product or activity group   OtherIncomesOfCompany   standard label   In-cost   Total revenue as per financial accounts   Total RevenueAsPerFinancialAccounts   standard label

f. Calculation Cost Audit Report: This worksheet contains the Additive relationships between numeric items expressed as parent-child hierarchies in the Cost Audit Report. Each calculation child has a weight attribute (+1 or -1) based upon the natural balance of the parent and child items. Illustration below represents the calculation view of the Value addition and distribution of earnings of the Annexure to Cost Audit Report (Para 8):

1 Prefix	Standard Label	Element Name	Order	Weight	
31 ELR	[100370] Value addition and distribution of earnings				
32 in-cost	Distribution of earnings	DistributionOfEarnings			
33 in-cost	To employees as salaries, wages, retirement benefits and others	ToEmployeesAsSalariesWagesRetirementBenefitsAndOthers		1	1
34 in-cost	To shareholders as dividend	ToShareholdersAsDividend		2	1
35 in-cost	Funds retained by company	FundsRetainedByCompany		3	1
36 in-cost	To government as taxes	ToGovernmentAsTaxes		4	1
37 in-cost	Other distribution of earnings	OtherDistributionOfEarnings		5	1
38 in-cost	Earnings available for distribution	EarningsAvailableForDistribution			
39 in-cost	Other incomes of company	OtherIncomesOfCompany		1	1
40 in-cost	Value added of company	ValueAddedOfCompany		2	1
41 in-cost	Net revenue from operations of company for value addition	NetRevenueFromOperationsOfCompanyForValueAddition		1	1
42 in-cost	Gross revenue from operations of company	GrossRevenueFromOperationsOfCompany		1	1
43 in-cost	Excise and other duties of company	ExciseAndOtherDutiesOfCompany		2	-1
44 in-cost	Export incentives of company	ExportIncentivesOfCompany		2	1
45 in-cost	Adjustments in work-in-progress and finished stocks of company	AdjustmentsInWorkInProgressAndFinishedStocksOfCompany		3	1
46 in-cost	Cost of bought out inputs of company	CostOfBoughtOutInputsOfCompany		4	-1
47 in-cost	Cost of materials consumed of company	CostOfMaterialsConsumedOfCompany		1	1
48 in-cost	Cost of process materials or chemicals of company	CostOfProcessMaterialsOrChemicalsOfCompany		2	1
19 in-cost	Cost of stores and spares consumed of company	CostOfStoresAndSparesConsumedOfCompany		3	1
50 in-cost	Cost of utilities of company	CostOfUtilitiesOfCompany		4	1
51 in-cost	Cost of other bought out inputs of company	CostOfOtherBoughtOutInputsOfCompany		5	1
2					

g. Definition Cost Audit Report: It is used to express the dimensional relationship between elements of the Costing Taxonomy for the Cost Audit Report. An illustration of the definition linkbase for the Cost Audit Report showing elements of the Product or Activity Group Details is given below:

1	Prefix	Standard Label	Element Name	Order	<b>Context Element</b>	Closed
43	ELR	[100320] Product or activity group				
14	in-cost	Product or activity group [abstract]	ProductOrActivityGroupAbstract			
15	in-cost	Details of product or activity group [abstract]	DetailsOfProductOrActivityGroupAbstract	1		
6	in-cost	Product or activity group [table]	ProductOrActivityGroupTable	1	scenario	TRUE
7	in-cost	Identification of product or activity group [axis]	IdentificationOfProductOrActivityGroupAxis	1		
8	in-cost	Whether previous year figures are reported	WhetherPreviousYearFiguresAreReported	2		
9	in-cost	Details for not reporting previous year figures [text block]	DetailsForNotReportingPreviousYearFiguresExplanatory	3		
0	in-cost	General information of product or activity group [abstract]	GeneralInformationOfProductOrActivityGroupAbstract	4		
1	in-cost	Name of product or activity group	NameOfProductOrActivityGroup	1		
2	in-cost	Product or activity group code	ProductOrActivityGroupCode	2		
3	in-cost	Four digit CETA chapter headings included in product or activity grou	FourDigitCETAChapterHeadingsIncludedInProductOrActivit	, 3		
4	in-cost	Net operational revenue of product or activity group	NetOperationalRevenueOfProductOrActivityGroup	4		
5	in-cost	Whether product or activity group covered under cost audit	WhetherProductOrActivityGroupCoveredUnderCostAudit	5		
_						

h. **Extended Link Compliance Report:** This worksheet contain the Extended Link Role definitions contained in the Compliance Report. Extended Link Roles represents a set of relationships between concepts and are the logical grouping of elements. The extended links are then used in link bases to build the relationships. The list of extended link roles in the Compliance Report are:

1	#	Extended Link Role definition	Used On
2		1 [200100] General information compliance	presentationLinkbaseRef
3		2 [200300] Quantitative information	presentation Link base Ref, calculation Link base Ref, definition Link base Ref
4		3 [200400] Reconciliation statement	presentationLinkbaseRef , calculationLinkbaseRef
5		4 [200400a] Reconciliation statement-Details of incor	presentationLinkbaseRef , definitionLinkbaseRef
6		5 [200400b] Reconciliation statement-Details of expe	presentationLinkbaseRef , definitionLinkbaseRef
7		6 [200500] Compliance report (Form B)	presentationLinkbaseRef
8		7 [990000] Typed default	definitionLinkbaseRef
9			

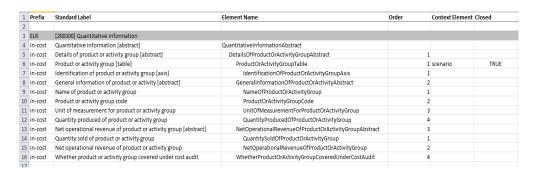

i. **Presentation Compliance:** This worksheet defines the structure of the Compliance Report for displaying the data along with preferred label attribute and the specific order in which they appear. This enables the taxonomy users to view the representation of elements in the human readable format. The illustration below shows the presentation of Quantitative Information (Para 2 of the Annexure to Compliance Report):

l Prefix	Preferred Label	Element Name	Label Role	Order
0 ELR	[200300] Quantitative information			
1 in-cost	Quantitative information [abstract]	QuantitativeInformationAbstract	standard label	
2 in-cost	Details of product or activity group [abstract]	DetailsOfProductOrActivityGroupAbstract	standard label	
3 in-cost	Product or activity group [table]	ProductOrActivityGroupTable	standard label	
4 in-cost	Identification of product or activity group [axis]	IdentificationOfProductOrActivityGroupAxis	standard label	
5 in-cost	General information of product or activity [abstract]	GeneralInformationOfProductOrActivityAbstract	standard label	
6 in-cost	Name of product or activity group	NameOfProductOrActivityGroup	standard label	
7 in-cost	Product or activity group code	ProductOrActivityGroupCode	standard label	
8 in-cost	Unit of measurement for product or activity group	UnitOfMeasurementForProductOrActivityGroup	standard label	
9 in-cost	Quantity produced of product or activity group	QuantityProducedOfProductOrActivityGroup	standard label	
0 in-cost	Net operational revenue of product or activity group [abstract]	NetOperationalRevenueOfProductOrActivityGroupAbstract	standard label	
1 in-cost	Quantity sold of product or activity group	QuantitySoldOfProductOrActivityGroup	standard label	
2 in-cost	Net operational revenue of product or activity group	NetOperationalRevenueOfProductOrActivityGroup	standard label	
3 in-cost	Whether product or activity group covered under cost audit	WhetherProductOrActivityGroupCoveredUnderCostAudit	standard label	
4 in-cost	Other incomes of company	OtherIncomesOfCompany	standard label	
5 in-cost	Total revenue as per financial accounts	TotalRevenueAsPerFinancialAccounts	standard label	

j. Calculation Compliance Report: This worksheet contains the Additive relationships between numeric items expressed as parent-child hierarchies in the Compliance Report. Each calculation child has a weight attribute (+1 or -1) based upon the natural balance of the parent and child items. Illustration below represents the calculation view of the Quantitative Information and Reconciliation Statement of the Annexure to Compliance report:

1	Prefix	Standard Label	Element Name	Order	Weight	
2						
3	ELR	[200300] Quantitative information				
4	in-cost	Total revenue as per financial accounts	TotalRevenueAsPerFinancialAccounts			
5	in-cost	Other incomes of company	OtherIncomesOfCompany	1		1
6	in-cost	Net operational revenue of product or activity group	NetOperationalRevenueOfProductOrActivityGroup	2		1
7						
8	ELR	[200400] Reconciliation statement				
9	in-cost	Profit (loss) as per financial accounts	ProfitLossAsPerFinancialAccounts			
10	in-cost	Profit (loss) as per cost accounts	ProfitLossAsPerCostAccounts	1		1
11	in-cost	Profit (loss) from product or activity groups covered under cost audit	ProfitLossFromProductOrActivityGroupsUnderCostAudit	1		1
12	in-cost	Profit (loss) from product or activity groups covered under cost accou	ProfitLossFromProductOrActivityGroupsCoveredUnderCostAcc	2	!	1
13	in-cost	Profit (loss) from activities not covered under cost accounting record	ProfitLossFromActivitiesNotCoveredUnderCostAccountingReco	3		1
14	in-cost	Difference in stock valuation as per cost and financial records	DifferenceInStockValuationAsPerCostAndFinancialRecords	2		1
15	in-cost	Amount of incomes not considered in cost accounts	AmountOfIncomesNotConsideredInCostAccounts	3		1
16	in-cost	Amount of expenses not considered in cost accounts	AmountOfExpensesnotConsideredInCostAccounts	4		-1
17						

k. **Definition Compliance Report:** It is used to express the dimensional relationship between elements of the Costing Taxonomy for the Cost Audit Report. An illustration of the definition linkbase for the Compliance Report showing elements of the Quantitative Information (Para 2) is given below:

10. What is the use of other files given in xml / xsd format along with the taxonomy?

Taxonomy file has extensions of XML and XSD. An XBRL processor (computer software that understands and/or manipulates XBRL documents) will need those XML and XSD documents.

### 11. How and where can a person interested in filing cost audit report and compliance report in XBRL format take training for the same?

The Institute of Cost Accountants of India has been organizing XBRL training programmes across the country to familiarize interested professionals with the Costing Taxonomy. The details of the programmes are available on the website of the Institute (<a href="www.icwai.org">www.icwai.org</a>) as well the website of MCA (<a href="www.mca.gov.in">www.mca.gov.in</a>).

### 12. How can the cost audit report and compliance report is converted into the XBRL format?

XBRL is an open source technology. Any of the following methods can be adopted to create the instance document required for filing of the respective reports.

- XBRL-enabled software packages developed by different software vendors which support the creation of cost reports in XBRL format can be used to create the necessary document.
- Various elements of Cost Audit Report and Compliance Report can be mapped into XBRL tags of the costing taxonomy using specialised XBRL software tools specifically designed for this purpose.
- Different third party packages can be integrated into the existing accounting systems to generate XBRL Cost statements.
- There are various web based applications available that take input reports in various formats viz. Microsoft Excel etc. and transform them into XBRL format.

The methodology adopted by an individual company will depend on its requirements and the cost accounting software and systems being used and other factors.

# 13. Does preparing XBRL Documents mean that the entire report has to be typed (Data Entry) in XBRL?

XBRL software is required for creating instance documents. The way of working and sequence of entering data in the software may be different, but the output, i.e. the XBRL instance document has to be same irrespective of the software used. The softwares developed by individual vendors being different, some may require data entry to be done, while some others may facilitate tagging on the document itself.

# 14. Is the XBRL software required to be purchased from a software vendor or MCA will provide the software. Which agency should I approach to get the XBRL software?

XBRL instance document creation software is required to be purchased from the software vendors in the market. This software is used to create XBRL instance documents for uploading on the MCA portal. MCA21 system provides facility for validation of the instance document and filing of the same. MCA is not recommending any specific XBRL software.

There are several software vendors in the market, who are in the business of developing XBRL software tools. The users are free to choose the one that suits their requirements in order to create XBRL documents for filing.

### 15. What is the purpose of the Final Costing Taxonomy and the Business Rules?

The final costing taxonomy published by MCA is to be used for mapping of individual cost elements of the company to the Taxonomy. The Business Rules of the Costing Taxonomy published by the MCA provides details of the character of individual elements of the taxonomy and the validation checks built into the system to ensure correctness of the information.

### 16. What process is to be followed to file the reports in XBRL Format?

Ministry of Corporate Affairs has given the Filing Manual that can be downloaded from the following link:

http://www.mca.gov.in/Ministry/pdf/XBRL Filing%20manual Costing%201.0 .pdf

The following steps have to be followed in sequence:

- Mapping the individual cost elements of the company to the elements of the costing taxonomy.
- Populating the relevant data in the software/filing tool.
- Creating an XBRL instance document.
- Download XBRL validation tool.
- Validating the instance document with the validation tool of MCA.
- Pre-scrutiny of the instance document.
- Use available tool to convert the instance document to a human readable pdf format and check correctness of data.
- Attaching the instance document to the e-Form and filing on MCA portal.

### 17. Is it necessary to convert the instance document (xml) into a human readable / pdf format?

Though technically, it is not required to convert the xml instance document into human readable / pdf format, it is advisable to generate a human readable format of the instance document to ensure its correctness by matching with relevant Cost Audit Report or Compliance Report prepared by the Cost Auditor/Accountant before it is uploaded.

### 18. Whether it is required to validate the instance document created before uploading the same on MCA portal?

Yes, validating the instance document is a pre requisite before filing the Cost Audit Report and Compliance Report on MCA portal. A tool has been provided on the MCA portal for validating the generated XBRL instance document. You are required to download the tool from the portal and validate the instance document before uploading the same. The MCA XBRL validation tool can be downloaded from the XBRL website of the Ministry of Corporate Affairs from the following link:

http://xbrltool.mca.gov.in/XBRL/XBRL TOOL/MCAXBRLCostingTaxonomy ValidationTool Version1.0.zip

### 19. Will extension to the taxonomy be allowed based on company specific requirements?

No extensions are allowed in the Costing Taxonomy. This means the tagging is required to be done with the elements already defined in the Costing Taxonomy and additional elements cannot be added.

### 20. When we are filing Cost Audit Report/ Compliance in XBRL format, then whether the previous Form-I and Form-A are still in existence or not?

Previous forms are no longer in existence. Only the new forms I-XBRL and A-XBRL are to be used for filing of Cost Audit Report and Compliance Report respectively in the XBRL format.
