

Panasonic Life Solutions India Private Limited

About the Company:

Panasonic Life Solutions India Private Limited is on a mission to manufacture, innovative, eco-friendly world-class products for making user's life simpler, safer & comfortable. Established in 1963, Panasonic Life Solutions India Private Limited (formerly known as Anchor Electricals Private Limited), is a wholly-owned subsidiary of Panasonic Corporation. With a constantly expanding product range and growing market share, it is one of the leading manufacturers of electrical construction materials (ECM) with a presence across India. Its sales and operating profit are steadily growing and it concluded the last financial year with net sales in excess of INR 34 billion. Being a prominent player in the Indian electrical segment the company has about 31 domestic offices and 9500 employees. Currently, the company's 7 manufacturing units at 4 locations in India are manufacturing electrical products, synonymous with quality. The company offers a wide spectrum of electrical solutions in consumer products ranging from Wires & Cables, Lighting, Solar power, Wiring Devices, Switchgears, Infrastructure and Indoor Air Quality (IAQ). The company has launched Kitchen and Home Automation (IoT) Solutions in the Indian Market. For more details, please visit company website.
