Partners in our ecosystem

## Our purpose

To deliver on the promise of technology and human ingenuity, we embrace the power of change to create 360° value for our clients, people and communities.

We now work with 91 of the Fortune Global 100. As of 2020, we've made 18 consecutive appearances on the list of Fortune's World's Most Admired Companies; and that is just the beginning.

# What we believe

## Core values

Our values shape the culture of our organization and define the character of our company. We live the core values through individual behaviors. They serve as the foundation for how we act and make decisions.

---

## Ethics and corporate governance

Acting with ethics and integrity always has been and always will be the right thing to do.

---

## Our culture of equality

Accenture's commitment to our people and to accelerating equality for all has never been more relevant than it is today. We are committed to creating an inclusive and accessible workplace.

---

## Accenture in India

Realizing tangible outcomes for our clients through provocative thinking and transformative insights, Accenture in India offers a wide range of services spanning **Strategy & Consulting, Interactive, Technology** and **Operations**.

### The Good, the New and the Future-ready

Our work and collaboration in innovation and technology bolster businesses and industries, leading India into an exhilarating post-digital Now.

# Tech Vision 2021

The technology trends which will shape the future

It's the moment of truth. Technology has sustained us through the pandemic and now continues to redefine how we work, live and interact. These are the key tech trends leaders must embrace to forge a better future.

# Expand your potential with Accenture graduate opportunities

Being an exceptional CMA, you bring deep functional knowledge to areas like Financial Accounting, Costing, Budgeting, Financial Closing and Audit Requirements. At Accenture, you will get opportunities to strengthen these existing specialized skills and expand your understanding across SAP functions.

Join us as a **SAP Financial Analyst**.

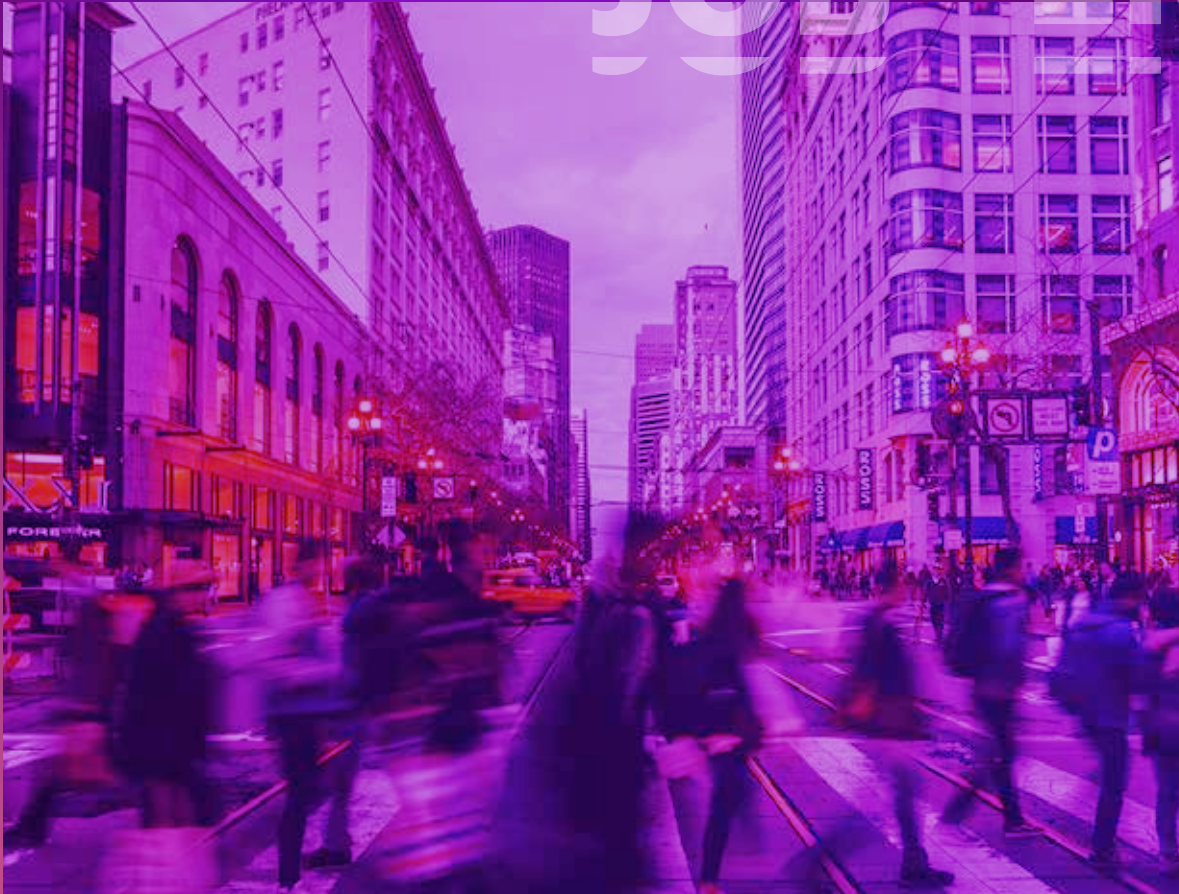

## Your core responsibilities will include:

- Working on leading ERP SAP S/4 HANA projects and across Finance & Accounting, Business Planning, Consolidation and Finance Supply Chain Management to design the best practice technology solutions
- Capturing user requirements and translating client requirements into business and technology solutions
- Defining system and technology requirements using technical analysis to as-is and to-be processes
- Delivering quality functional and application designs to ensure technology solutions represent current and future business requirements
- Developing, implementing and maintaining quality business solutions for the client

## Eligibility Criteria

- CMA with maximum 4 attempts in each level
