Job Title: SAP Consultant/Business Analyst
Location: Noida, India
CTC: 8 to 15 LPA
No. of Vacancies: 10 (tentative)

About Us: Orane Consulting Private Limited is a distinguished SAP and digital services and product company, rooted in a legacy of excellence since 2009. Our commitment to delivering holistic digital transformation solutions has positioned us as industry leaders in the SAP domain. We serve a wide array of sectors across the globe, including Finance, Manufacturing, Retail, CPG, Utilities, Professional Services, and Wholesale Distribution.

Job Description: Orane Consulting Private Limited is seeking experienced and dedicated Cost Management Accountants to join our team as ERP Business Process Experts. In this multifaceted role, you will be responsible for a diverse array of ERP modules, spanning from Procure to Pay, Order to Cash, Plan to Produce, Maintenance, Project Systems, and more. Your comprehensive understanding of financial aspects, including budget vs. actuals, financial GLs, cost centers, profit centers, asset accounting, taxation, and management reporting, will be pivotal in driving success for our clients.

Key Responsibilities:

- Collaborate with clients to assess their specific ERP needs across modules, taking into account Procure to Pay, Order to Cash, Plan to Produce, Maintenance, Project Systems, and more.
- Design, configure, and implement ERP solutions that align with clients' operational and financial objectives.
- Apply your expertise in Cost and Management Accounting to provide insightful recommendations for process improvement and optimization.
- Ensure the seamless integration of ERP modules with clients' core business processes.
- Offer guidance and support in financial reporting, budgeting, asset accounting, and taxation.
- Interpret and analyze financial data to provide valuable insights for decision-making.
- Work collaboratively with cross-functional teams to deliver comprehensive and client-focused solutions.
- Stay current with ERP trends, updates, and industry best practices to drive continuous improvement.

Qualifications:

- Qualified Cost and Management Accountant.
- Prior experience in cost and management accounting, financial analysis, or business analysis.
- Proficiency in SAP configuration and customization.
- Strong analytical skills and the ability to work with complex data sets.
- Excellent problem-solving abilities and a proactive approach to challenges.
- Effective communication skills and the ability to work collaboratively in a team environment.
- A commitment to continuous learning and staying up to date with ERP advancements.

Benefits:

- Competitive salary and benefits package.
- Opportunity to work with a diverse and talented team.
- Exposure to a variety of industries and projects.
- Ongoing training and professional development opportunities.
- Career advancement within a growing company.

Join Orane Consulting Private Limited and become a part of our dynamic team, where you can leverage your expertise to drive meaningful impact for our clients.
